EXPANDING PLAY

Hey Grown-ups!

If your child is fairly familiar with how to use this kind of toy, this playbook is a great tool to help expand their play experience and encourage them to try it for themselves.

Keep in mind:

Since you know your child best, it is up to you to pick which products and resources are most appropriate for his or her level of ability. Make sure you supervise the play as needed, and don't modify the products.

Looking for more guidance for your child's play level? Please visit theautismproject.org for more information.

The Jenga® game is fun to play!

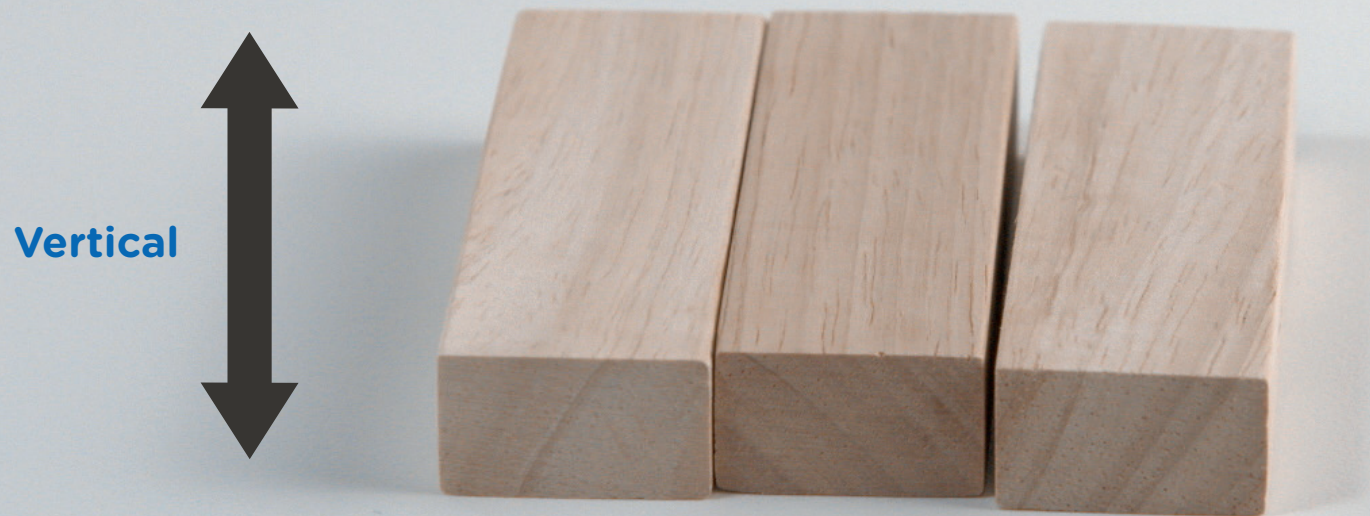

**The Jenga® game comes with wooden blocks and a stacking sleeve.
The sleeve helps keep the blocks in place while you get the game
ready to play.**

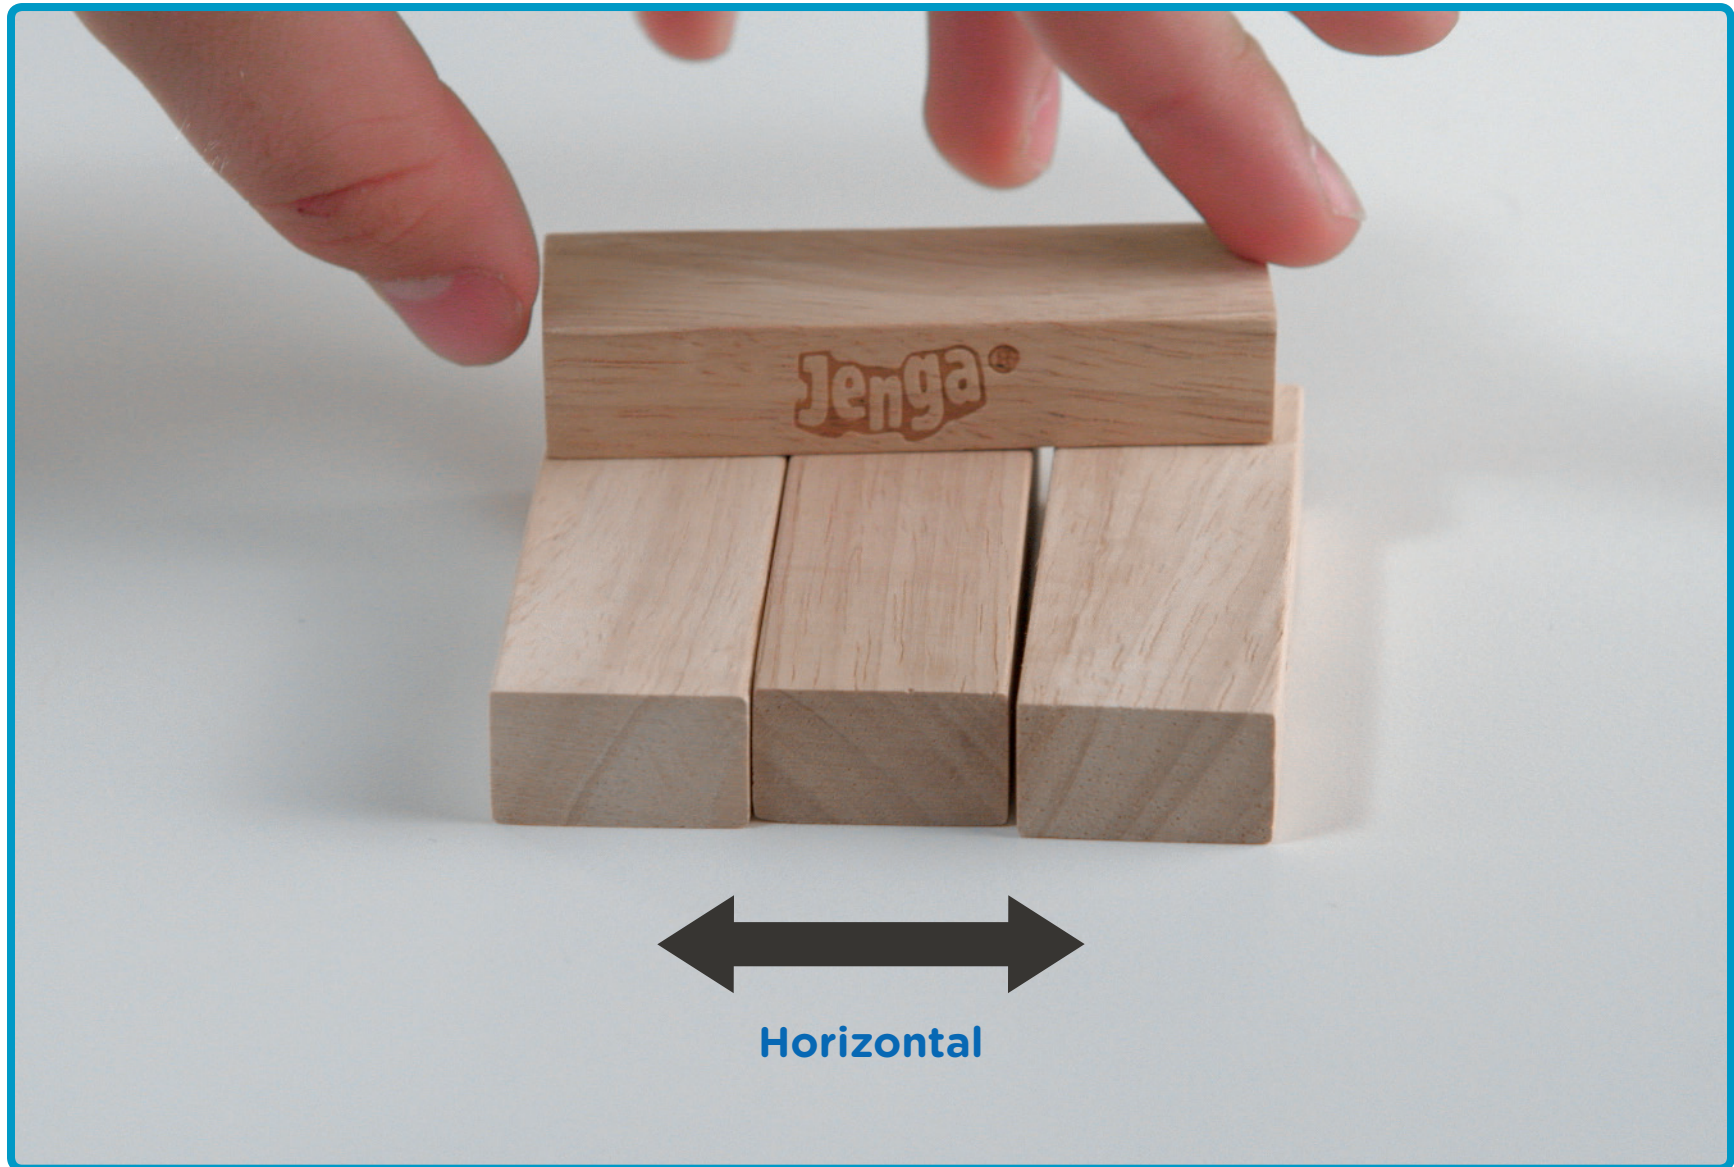

Stacking Sleeve

Wooden Blocks

**First, you can set up the game by stacking
3 wooden blocks in a vertical direction.**

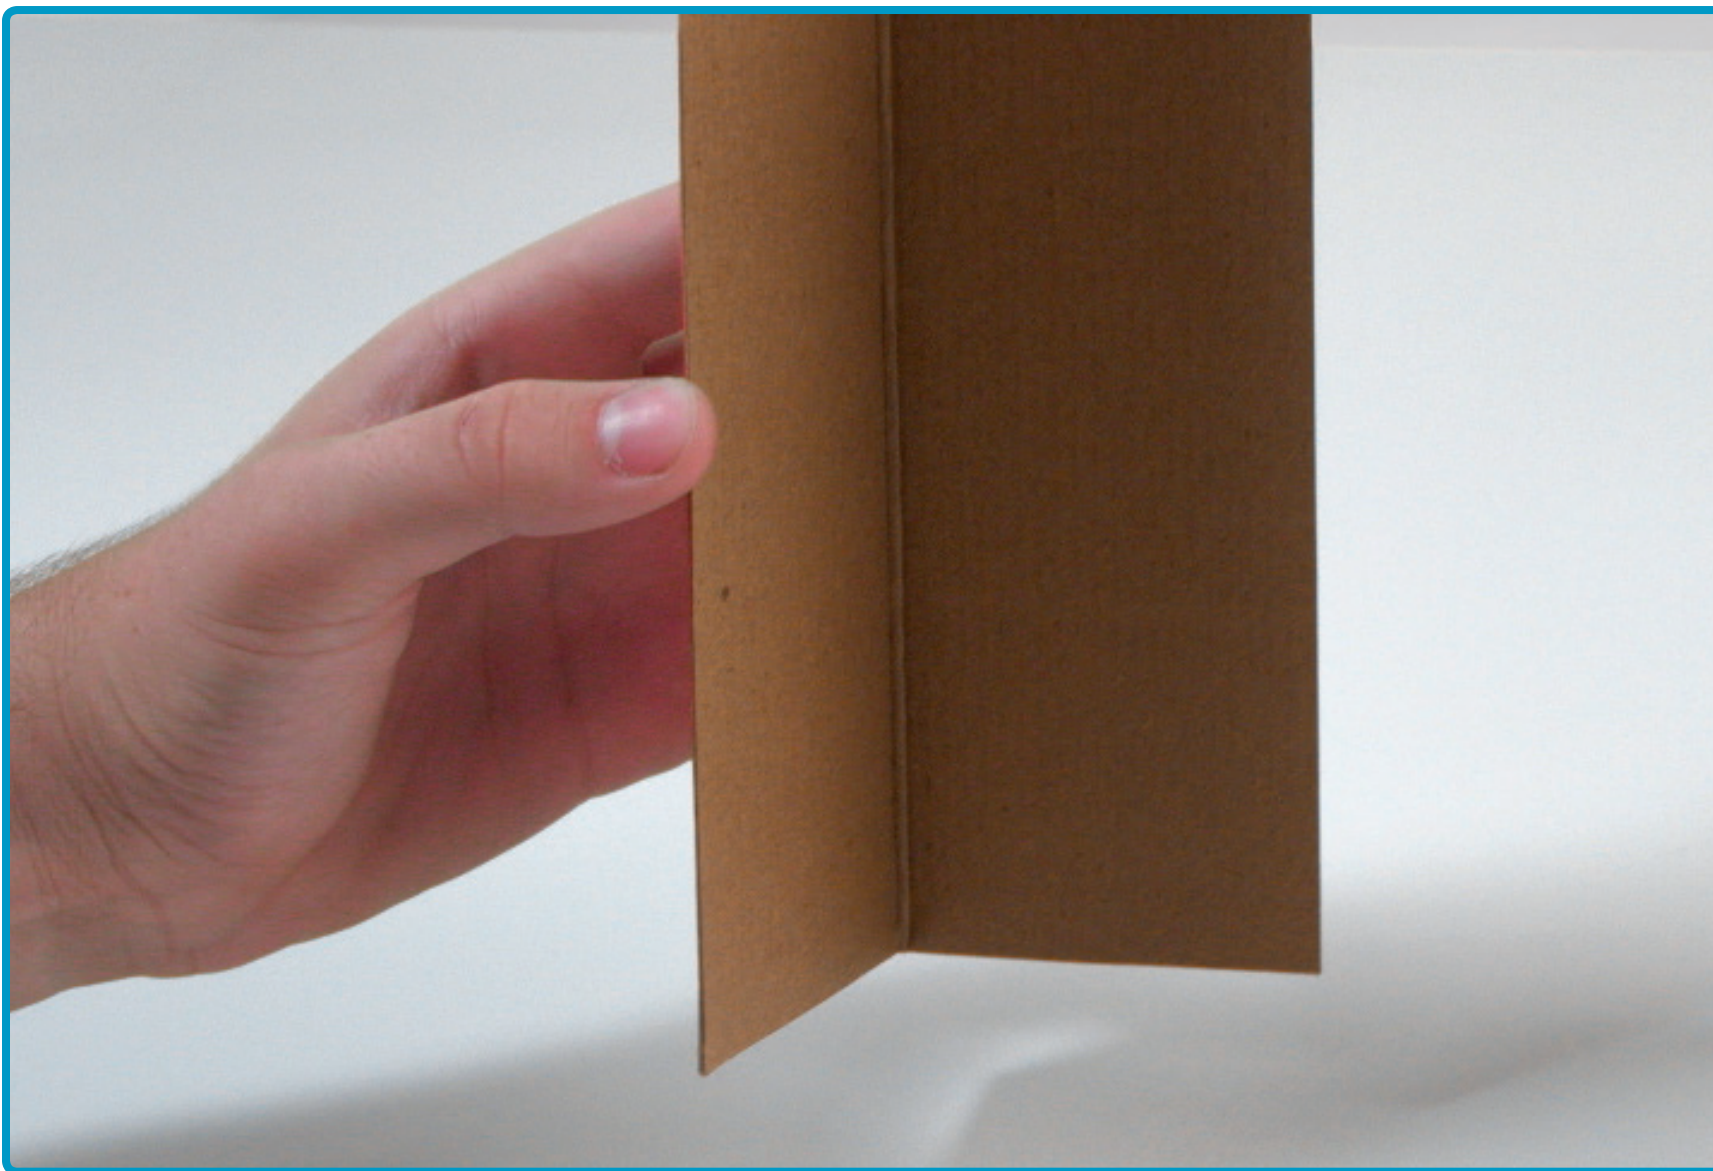

**Next, you can stack the second layer
of 3 blocks on top of the first stack.
This time, stack the blocks in a horizontal direction.**

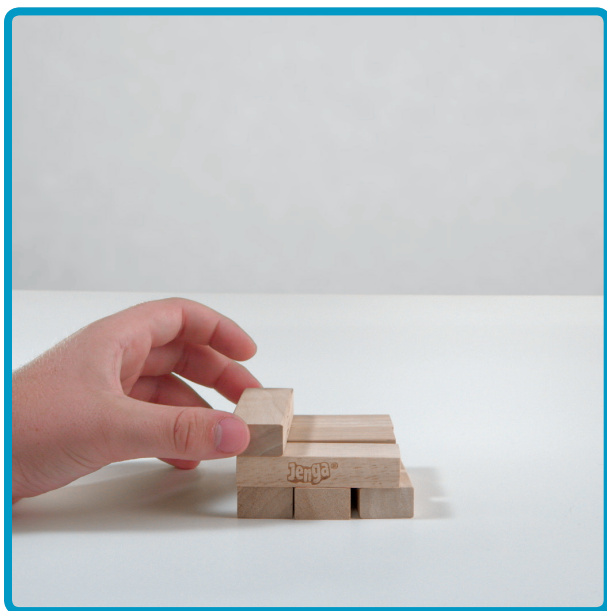

Now the second layer is done!

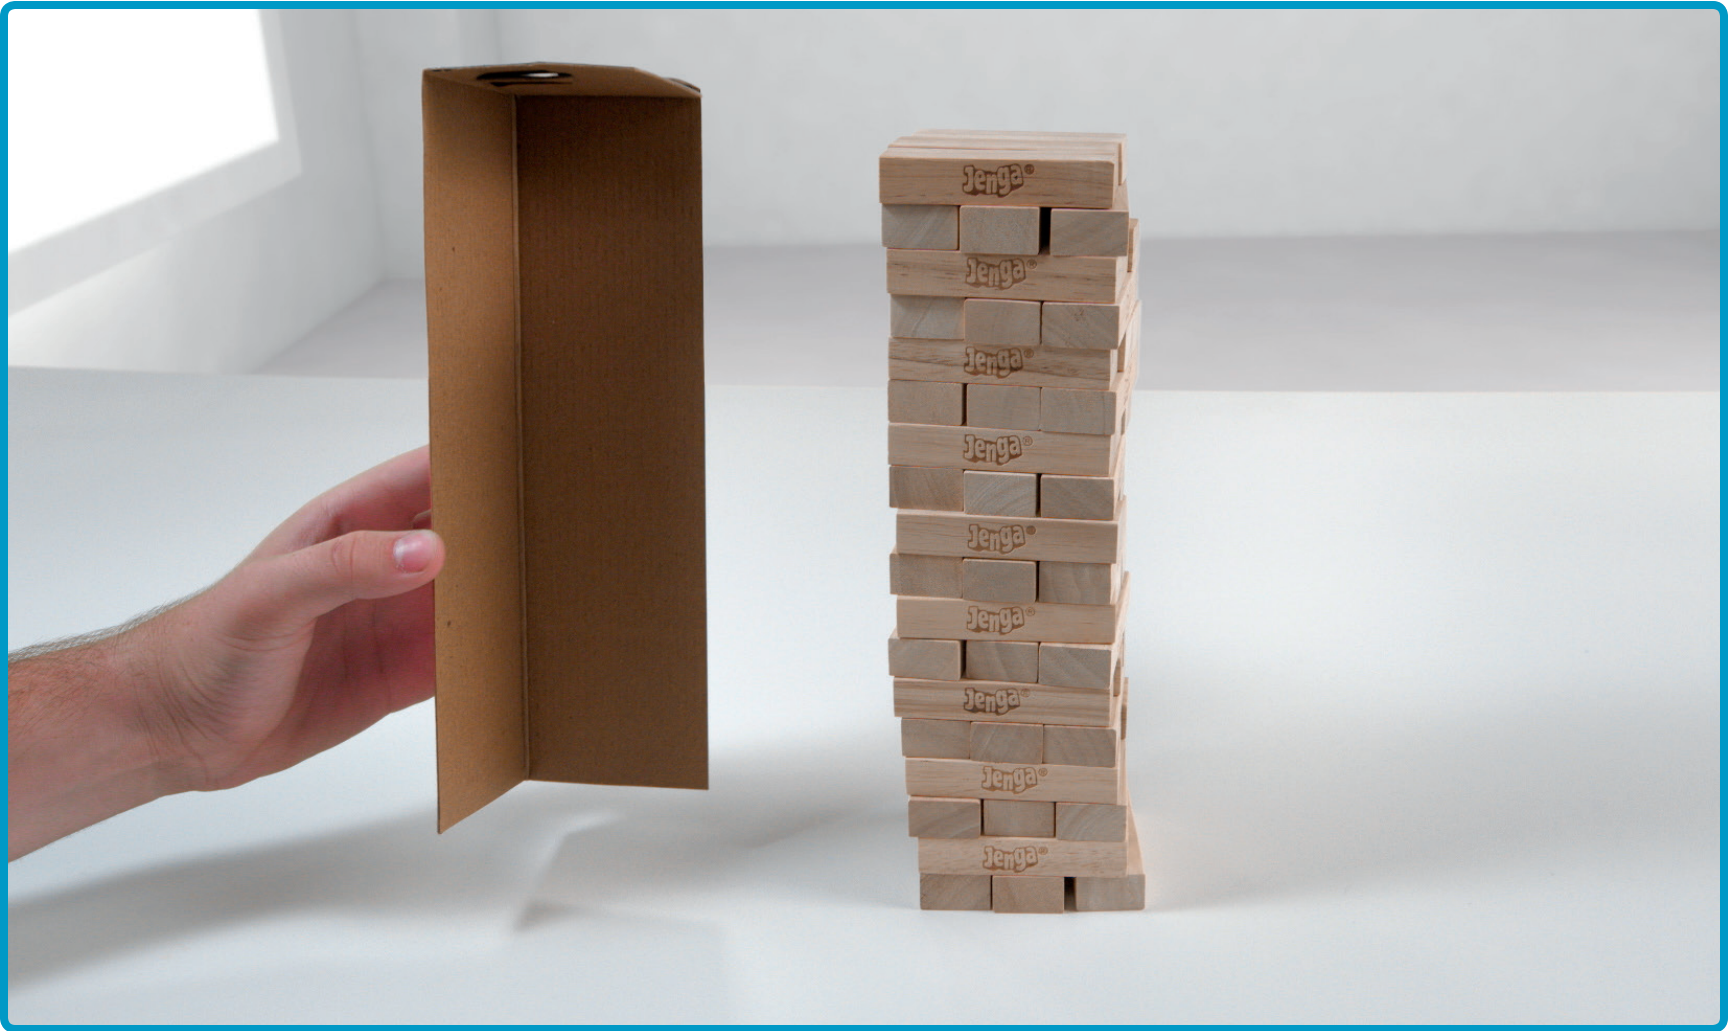

Now you can add the JENGA stacking sleeve.

Repeat your pattern of horizontal and vertical stacks until you have used up all of the blocks.

Now it's time to carefully remove the sleeve. It can be helpful to *lightly* keep one hand on the stack while using the other to pull the sleeve.

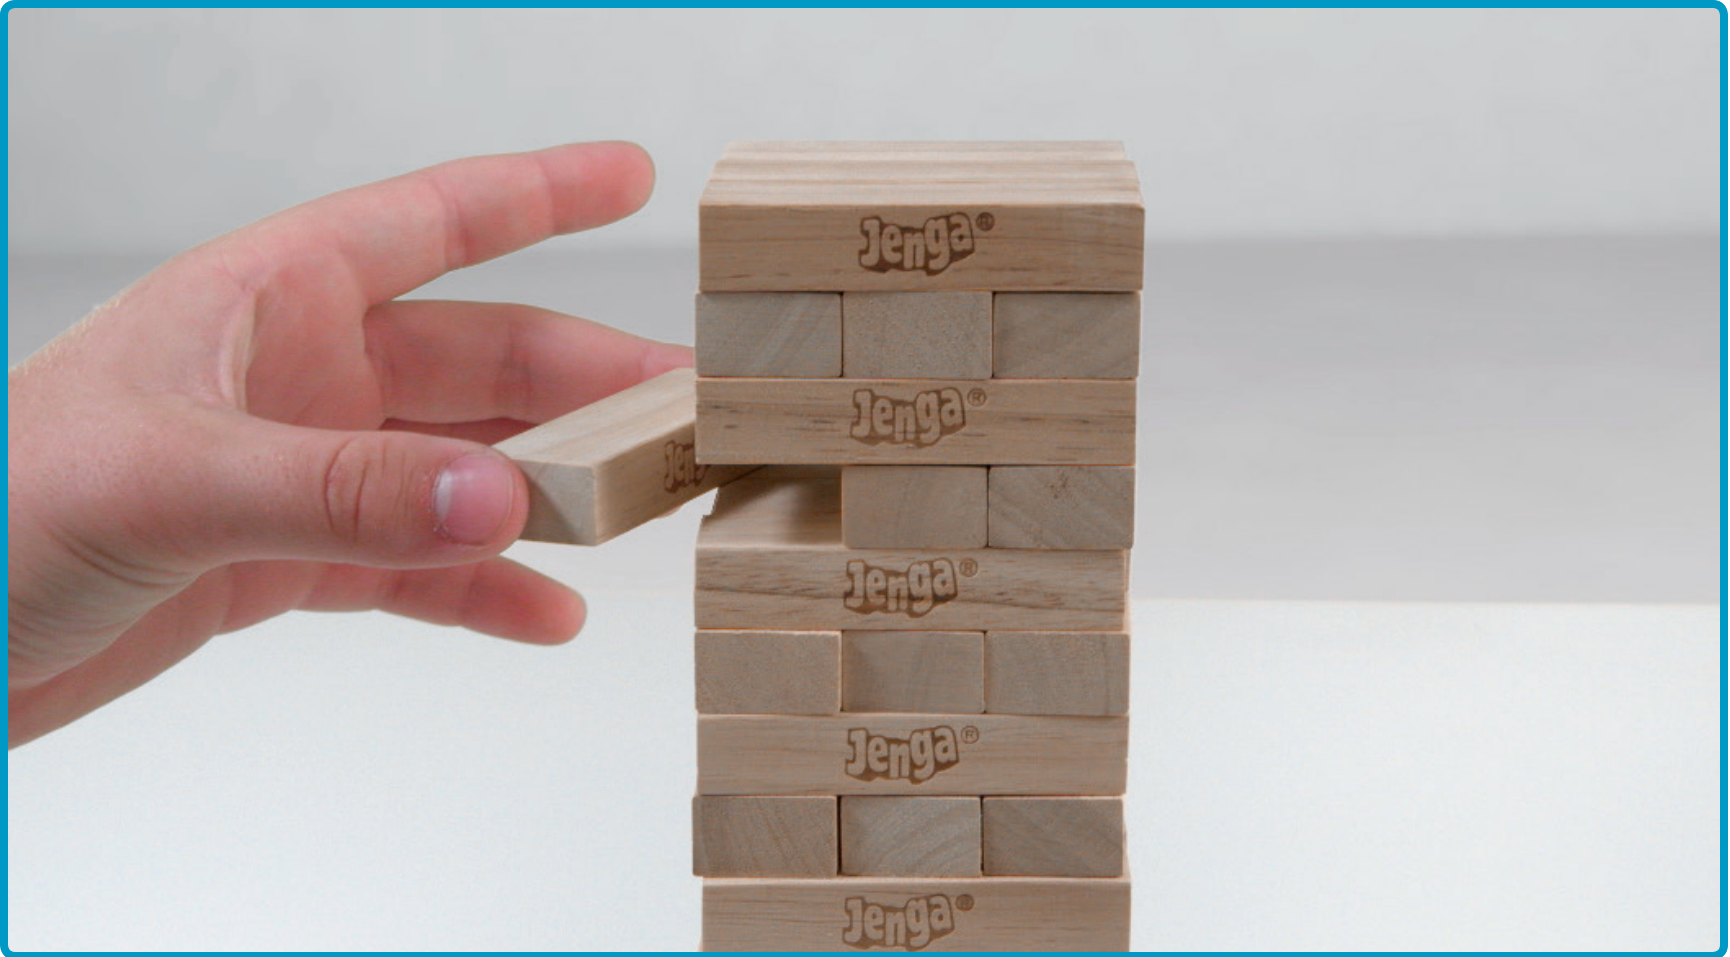

You can ask an adult for help.

Now it is time to play the JENGA game!

Pick a block that is below the top layer of the stack.

Try finding a loose brick that will come out easily. *Slowly* and *carefully* push it out of the tower.

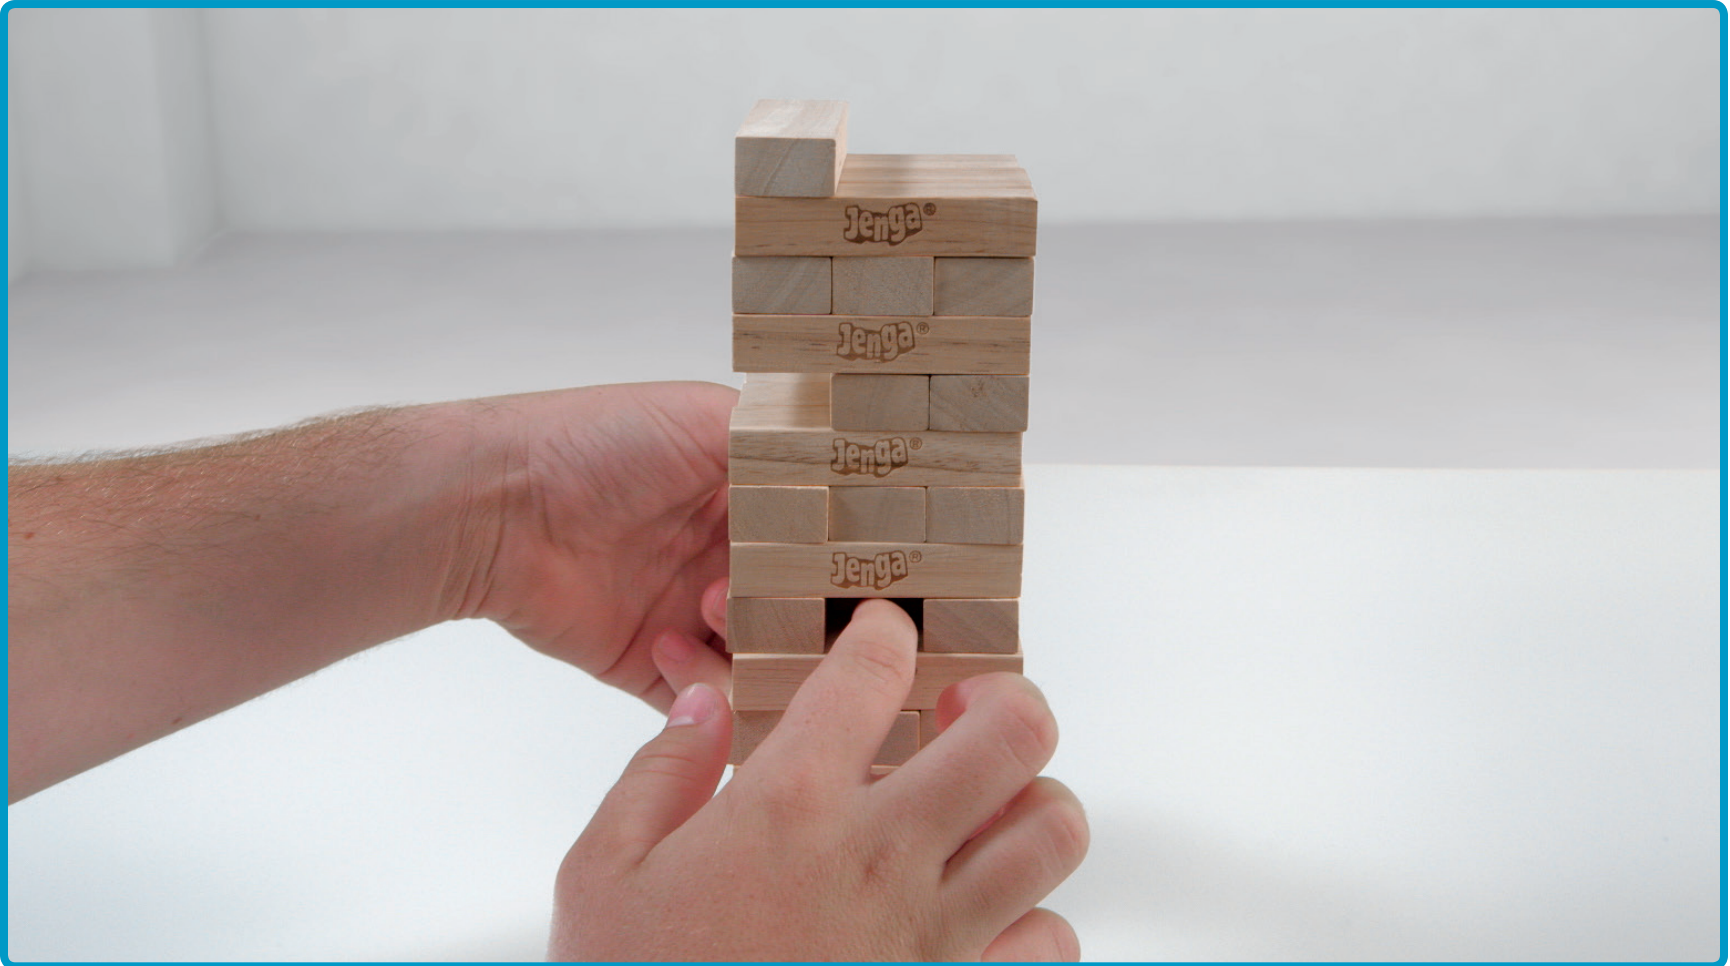

You got it out!

Once you have taken a block out, place it on top of the stack.

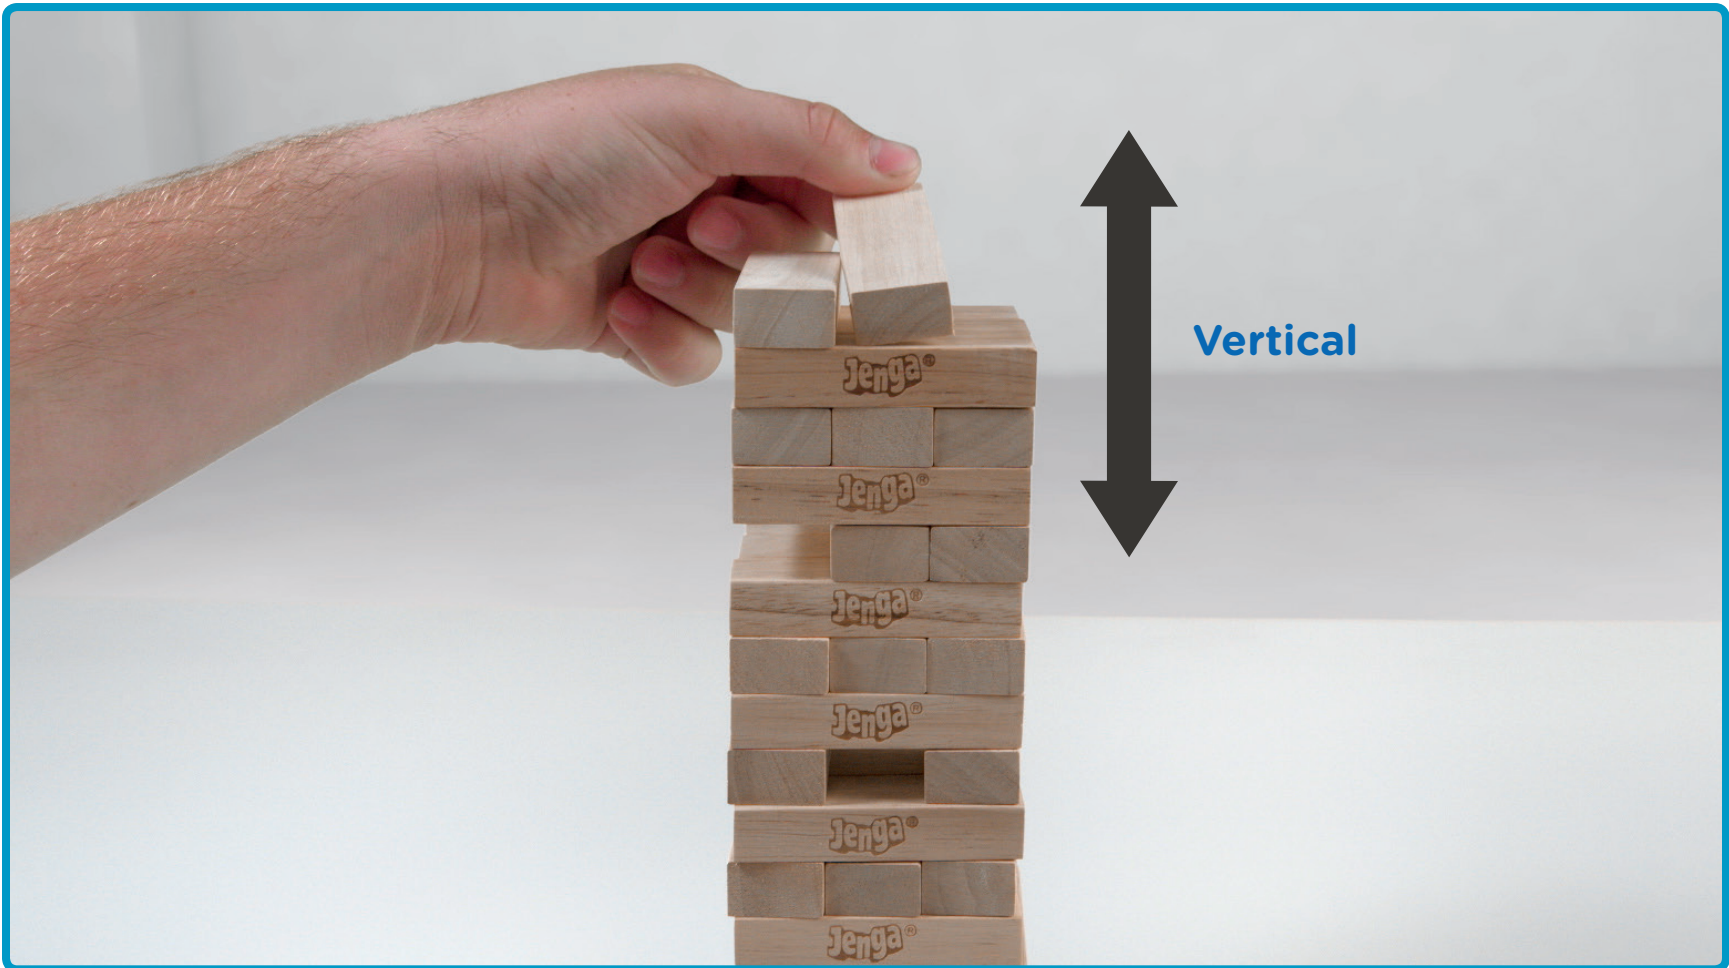

Now you are ready to take out the second block. Be careful!

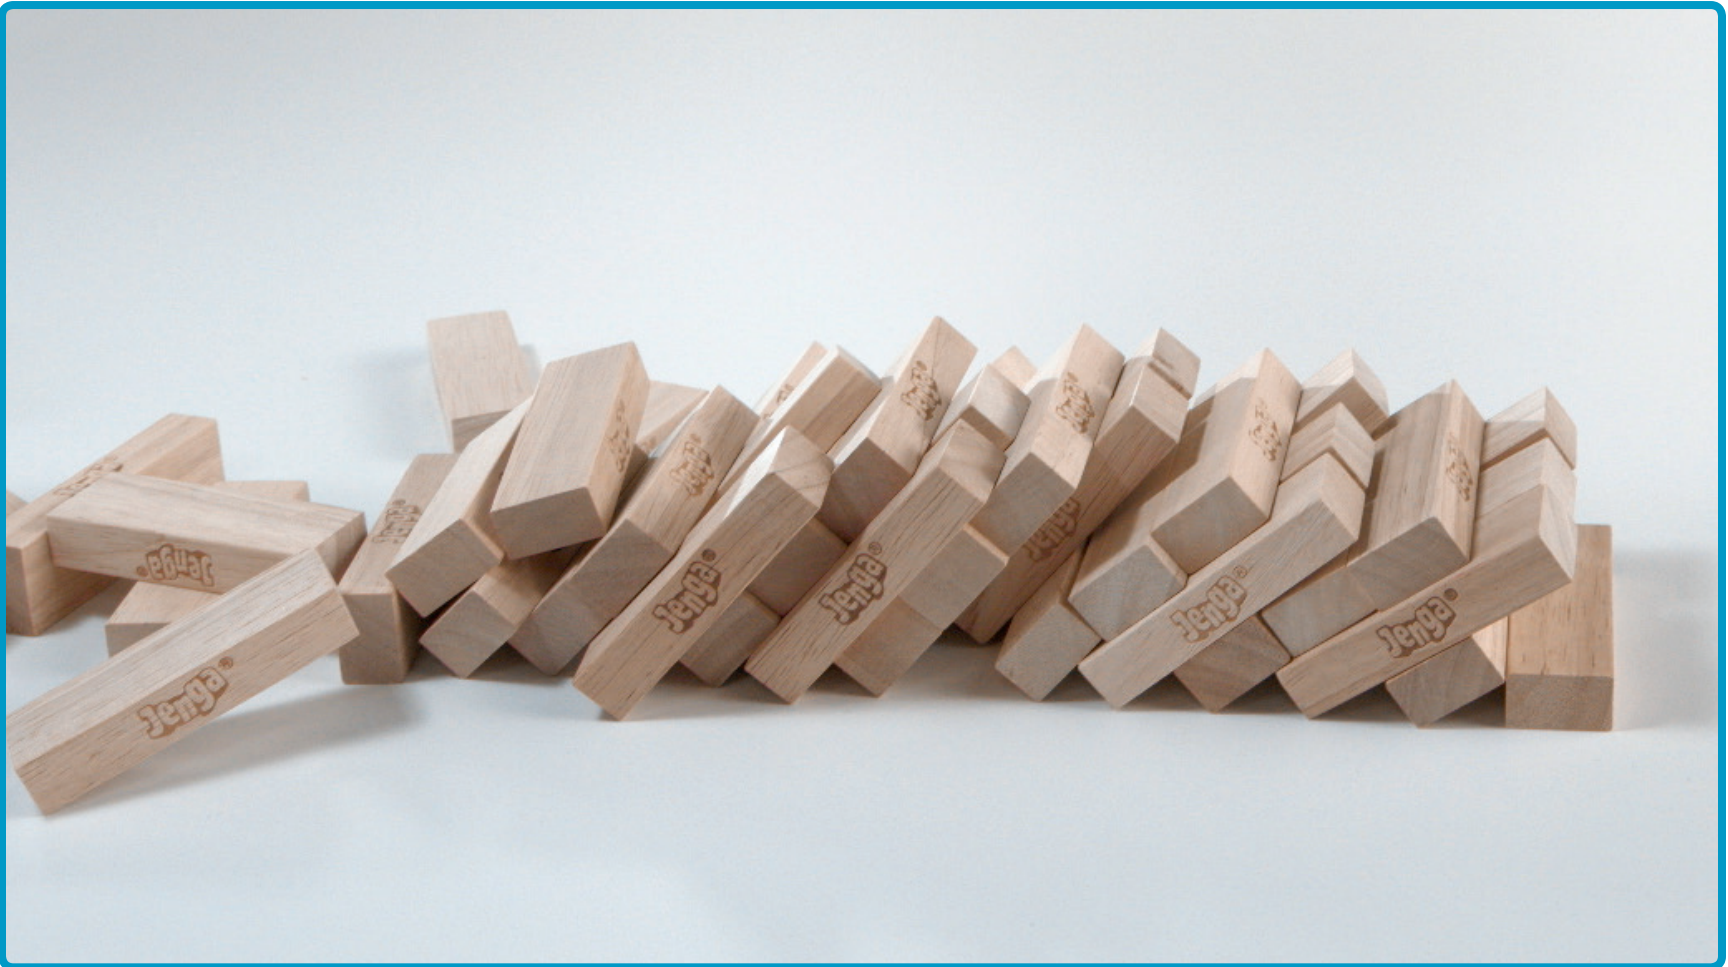

You did it! Now the block is out safely.

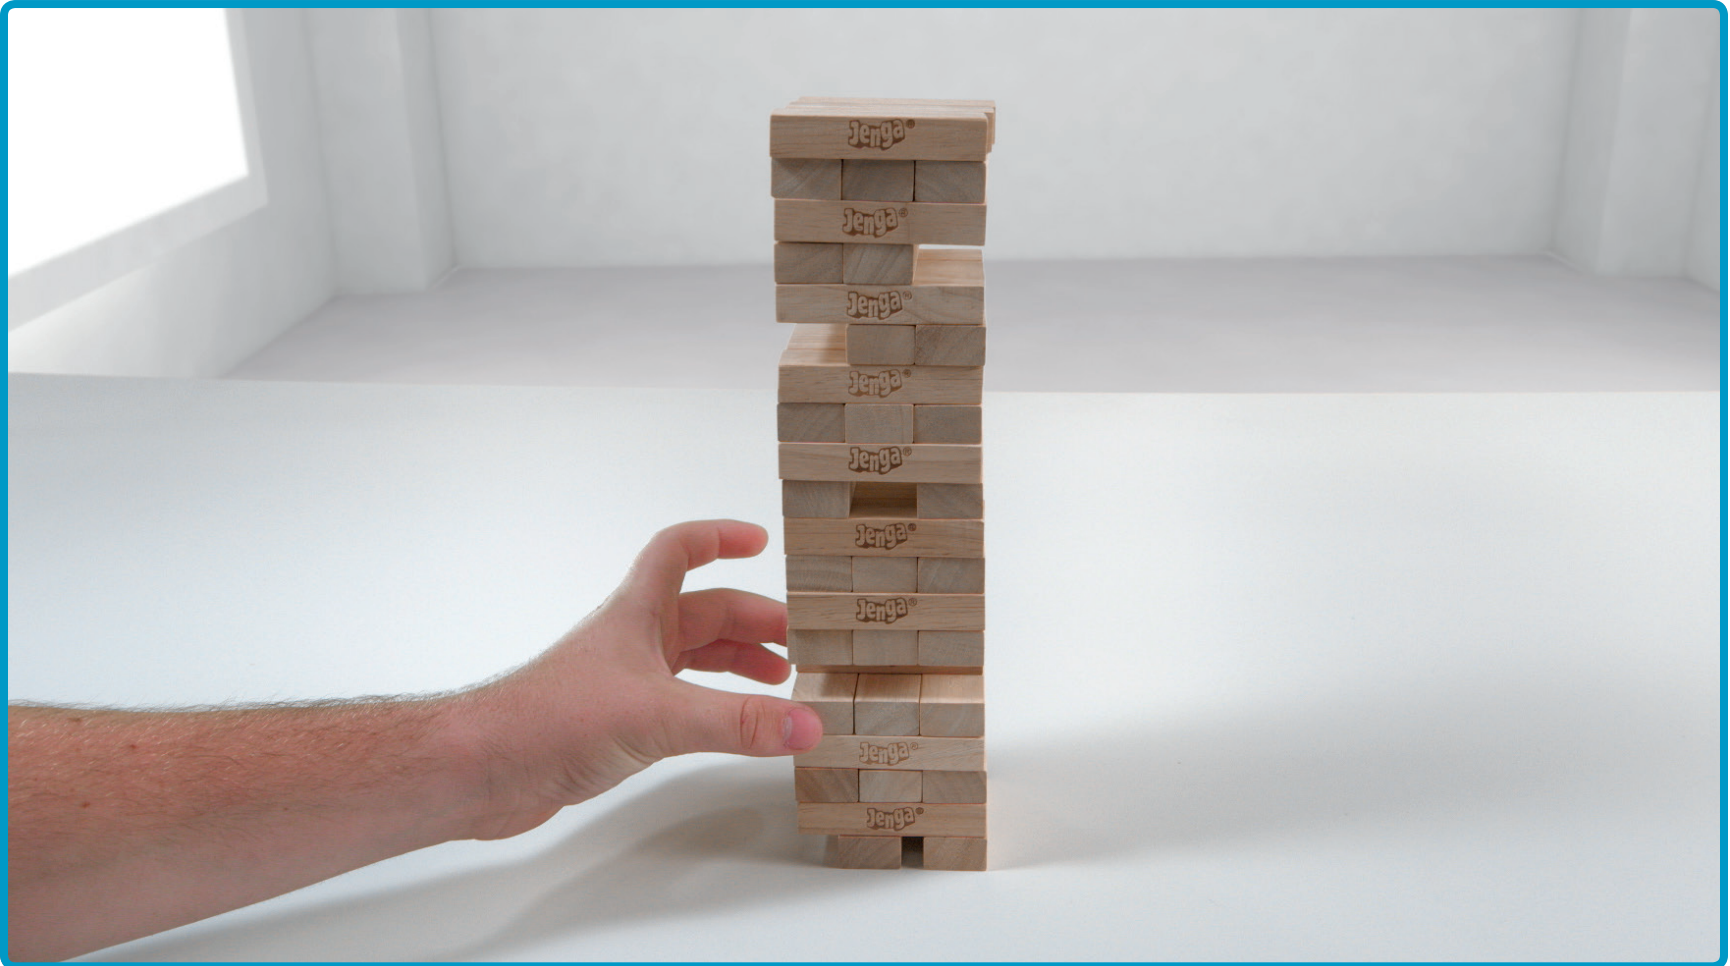

Now you can place this block on top of the stack.

**As you play, the JENGA tower might fall! That is OK.
You can start the game again.**

If your stack doesn't fall, keep playing until it does!

As you play, you can count how many layers of blocks you re-stacked.

**That Jenga® game was fun!
Would you like to play again?**
